Proceeding No. 203/2013  
Proceeding No. 204/2013

### Inquiry Report

By this common order, we propose to dispose of all the above mentioned proceedings as all these proceedings are based on identical facts.

2. The Complainants are marginal farmers who own agricultural lands in the properties bearing Survey No. 67/55, 69/8, 68/4, 63/31, 61/1, 67/56, 48/8, 54/54, 63, 24, 55/10, 48/8, 61/12, 67/10, 69/22, 63/22 and 50/19 respectively situated at Ugave village in Pernem Taluka. Complainants have approached this Commission with a grievance that a considerable area of their land has been eroded on account of illegal acts of sand extraction causing them considerable loss. The Complainants have stated that they approached the Director of Mines and Geology and other local authorities namely Collector (North Goa), Dy. Collector, Pernem, Mamatdar of Pernem and Police Inspector, Pernem Police Station from time to time and brought to

their notice about the damages caused to their properties on bank side of the river and requested them to take remedial measures to curtail illegal sand extraction at Terekhol river. However, the authorities have turned deaf ears to their grievances.

3. All the Respondents have filed separate replies. The Respondents have pleaded that this Commission has no jurisdiction to deal with this matter. The Respondents have also denied the allegations made by the Complainants.

4. We have heard the Parties. We have also gone through the entire records of this case including the various photographs and documents placed on record. The records indicate that there is a large scale extraction of sand in Pernem area and there is continuous erosion of soil/sand at the banks of river thereby causing severe damage to the coconut plantation and other vegetation/trees on the banks of the river and tremendous loss to the owners of the concerned land on the river banks.

5. Records of this case indicate that the Water Resources Department, Sub-Division-III, Pernem conducted site inspection along with the villagers of Ugave in pursuance of the note from the Minister of Panchayat Raj and noticed that the bank of river Terekhol in Ugave village has been badly eroded/damaged due to continuous extraction of sand since last many years. It was observed due to continuous sand extraction, the standing trees at the edge of the bank had fallen down in the river, river-bed has been deepened by about 1.5 to 2.00m, 1.5 to 2.00 deep water is seen standing during low tide and the river width has widened by about 2.00 to 3.00m (approx.). It was further observed that in order to avoid further damages to the river bank, the extraction of sand in the river should be stopped and necessary action should be initiated. The Executive Engineer, Works Division-I, Water Resources Department, Panaji-Goa by letter dated 19-06-2012 addressed to the Director of Mines requested the Director of Mines to act upon the illegal extraction of sand immediately as it was an offence under the Goa Irrigation Act, 1973. By another letter dated 31-08-2012, the Executive Engineer, Works Division-I, Water Resources Department, Panaji-Goa once again requested the Director of Mines to act upon the illegal extraction of sand. The Executive Engineer, Works Division-I, Water Resources Department, Panaji-Goa by letter dated 31-08-2012 brought to the notice of the

Mamlatdar, Pernem taluka that illegal sand extraction from Terekhol river in Ugave village has resulted in collapsing of river banks to the extent of 6m in height for the length of about 1.500 kms. which may increase as the collapse endangers the river banks and no measures have been taken to withhold such collapse. By the said letter, the Mamlatdar, Pernem taluka was requested to act upon the illegal extraction of sand immediately.

6. It is the case of the Complainants that they are depending upon agricultural income from the properties which are subject matter of these proceedings. The records indicate that on account of continuous erosion of soil/land the Complainants have been deprived of their lawful income which is their main source of income. Thus the fundamental rights of the Complainants to live with human dignity and decency guaranteed under Article-21 of Constitution of India stand infringed. Consequently the basic human rights of the Complainants are violated on account of uncontrolled and unregulated sand extraction.

7. In view of tremendous loss to the Complainants due sand erosion and damage to their agricultural lands and consequential damage to the agricultural plantation, we make following recommendations.

#### **Recommendations**

1. The State of Goa through its Chief Secretary shall constitute a Committee headed by District Collector and Officials of Department of Mines and Geology and Water Resources Department as members to assess the damages to the properties of the Complainants and agricultural plantation and to pay appropriate compensation to them after assessing the damages.
2. The State of Goa shall constitute such Committee within a period of 2 months from the date of receipt of this recommendations. In turn, the Committee shall submit its report to the State Government within 3 months.
